SECTION 14 TOWN OF LOS GATOS ANNEX

14.1 INTRODUCTION

This Town of Los Gatos Annex serves as an annex to the Santa Clara County Local Hazard Mitigation Plan which is an annex to the 2010 Association of Bay Area Local Hazard Mitigation Plan, *Taming Natural Disasters*. Pursuant to the Disaster Mitigation Act of 2000, the Town Council adopted this annex on February 21, 2012.

The Town of Los Gatos has not previously prepared a local hazard mitigation plan pursuant to the Disaster Mitigation Act of 2000, therefore this is not an update, and should be reviewed as a new plan.

The Town of Los Gatos is a small town located in the western region of Santa Clara County, California. The Town has a population of 28,592 people, based on the 2000 census. Homes are mostly upscale, varying from century old, one million dollar cottages in the downtown area, to ten to twenty million dollar, large, custom homes in the surrounding hills. The town is

noted for its small, pedestrian-friendly downtown, with many boutique shops, upscale restaurants, and thriving arts community. It is also a preferred destination for antique shopping.

Transportation

The Town of Los Gatos is served by the VTA (Valley Transit Authority), which also serves the majority of the county of Santa Clara, including San Jose. Two Los Gatos Community Buses run from Santa Cruz and Main to the Winchester Transit Center, the 49 bus runs via Los Gatos Boulevard and the 48 bus runs via Winchester.

RESOLUTION 2012-007

**RESOLUTION OF THE TOWN COUNCIL OF THE TOWN OF LOS GATOS
ADOPTING THE TOWN OF LOS GATOS ANNEX TO THE SANTA CLARA COUNTY,
CA ANNEX TO THE 2010 ASSOCIATION OF BAY AREA GOVERNMENT LOCAL
HAZARD MITIGATION PLAN ENTITLED "TAMING NATURAL DISASTERS" AND
APROVING THE ABAG PLAN AS THE TOWN'S LOCAL HAZARD MITIGATION
PLAN**

WHEREAS, the Bay Area is subject to various earthquake-related hazards such as ground shaking, liquefaction, landsliding, fault surface rupture, and tsunamis; and

WHEREAS, the Bay Area is subject to various weather-related hazards including wildfires, floods, and landslides; and

WHEREAS, the Town of Los Gatos recognizes that disasters do not recognize city, county, or special district boundaries; and

WHEREAS, the Town of Los Gatos seeks to maintain and enhance both a disaster-resistant Town of Los Gatos and region by reducing the potential loss of life, property damage, and environmental degradation from natural disasters, while accelerating economic recovery from those disasters; and

WHEREAS, the Town of Los Gatos is committed to increasing the disaster resistance of the infrastructure, health, housing, economy, government services, education, environment, and land use systems in the Town of Los Gatos, as well as in the Bay Area as a whole; and

WHEREAS, the federal Disaster Mitigation Act of 2000 requires all cities, counties, and special districts to have adopted a Local Hazard Mitigation Plan to receive disaster mitigation funding from FEMA; and

WHEREAS, ABAG has approved and adopted the ABAG report *Taming Natural Disasters* as the multi-jurisdictional Local Hazard Mitigation Plan for the San Francisco Bay Area;

NOW, THEREFORE, BE IT RESOLVED that the Town of Los Gatos adopts with its local annex, this multi-jurisdictional plan as its Local Hazard Mitigation Plan.

NOW, THEREFORE, BE IT FURTHER RESOLVED that the Town of Los Gatos commits to continuing to take those actions and initiating further actions, as appropriate, as identified in the Town of Los Gatos Annex to the Santa Clara County Hazard Mitigation Plan which is an annex to the Association of Bay Area Governments Hazard Mitigation Plan.

PASSED AND ADOPTED at a regular meeting of the Town Council of the Town of Los Gatos, California, held on the 21st day of February, 2012, by the following vote:

COUNCIL MEMBERS:

AYES: Diane McNutt, Joe Pirzynski, Barbara Spector, Mayor Steve Rice

NAYS:

ABSENT: Steven Leonardis

ABSTAIN:

SIGNED:

MAYOR OF THE TOWN OF LOS GATOS
LOS GATOS, CALIFORNIA

ATTEST:

CLERK ADMINISTRATOR OF THE TOWN OF LOS GATOS
LOS GATOS, CALIFORNIA

14.2 INTERNAL PLANNING PROCESS

The Town of Los Gatos participated in the regional planning process coordinated by ABAG and the local planning process coordinated by Santa Clara County OES as noted in Section 3 of this plan. Wendie Rooney, Community Development Director, served as the Town's representative and lead for completing this annex. Wendie, assisted by Jim Yoke, Emergency Services Coordinator, participated in Local Planning Team meetings #1, #2, and #3, facilitated the Town's public outreach for the online survey, performed internal reviews and collaboration in order to provide all of the required information for development of this annex.

Contact information: wrooney@losgatosca.gov, 408.399.5768

The Town of Los Gatos' internal planning team included the following individuals:

Todd Capurso, Parks and Public Works Director, Town of Los Gatos
Alana Forrest, Captain of Support Services, Los Gatos/Monte Sereno Police Department
Jessica von Borck, Economic Vitality Manager, Town of Los Gatos
Michael Machado, Building Official, Town of Los Gatos
Wendie Rooney, Community Development Director, Town of Los Gatos
Jim Yoke, Emergency Services Coordinator
Kerry Harris, Sergeant, Los Gatos/Monte Sereno Police Department

Public Outreach

The Town of Los Gatos notified residents and businesses of the hazard mitigation planning process by distributing promotional announcements regarding the public opportunity to respond to the online survey discussed in Section 3.2.6. A copy of the survey is included in County Attachment 7: Survey Outreach Materials, found in Section 9.7. The following media was utilized:

- Town Website (www.town.los-gatos.ca.us)
- Los Gatos Patch (online community-specific news and information platform, available at <http://losgatos.patch.com/>, article was available at <http://losgatos/patch.com/articles/residents-invited-to-participate-in-disaster-preparedness-survey>)

Copies of these outreach materials are included in Section 13.7, Los Gatos Attachment 1: Outreach Materials.

Survey Results

On November 1, 2010, the Local Planning Team released an online survey to solicit public input regarding concerns for hazard risk. The Local Planning Team also used this survey to gauge the level of public preparedness for emergencies. The survey responses received from the Town of Los Gatos residents are summarized below:

1. 21 out of 541 survey respondents were from the Town of Los Gatos.
2. Respondents were asked which five hazards, out of the 31 hazards the LPT identified, are of most concern to their neighborhood or home. Below are responses from the Town of Los Gatos (in order of most responses):

Table 14-1: Hazards of Most Concern

Hazards	Number of Responses
Earthquake: Ground Shaking	13
Wildfire	12
Infrastructure: Electrical System Disruption (no power)	11
Infrastructure: Water System Disruption (no potable water)	10
Earthquake: Landslides	6
Infrastructure: Energy System Disruption (no gas)	6
Disease and Outbreak	5
Earthquake: Surface Rupture	5
Infrastructure: Wastewater System Disruption (sewer backup)	5
Infrastructure: Telecommunication System Disruption (no phone / cell service)	5
Dam Failure	4
Infrastructure: Transportation Disruption (blocked roads / failed bridges)	4
Landslide and Debris flow	4
Drought	3
Additional Hazard	3
Agricultural Pests and Diseases	2
Hazardous Materials Spills (chemical/biological)	2
Heat (extreme heat)	2
Wind (high winds)	2
Delta Levee Failure	1
Expansive Soils	1
Flood	1
Thunder/Lightning Storms	1
Bay Area Silting	0
Earthquake: Liquefaction	0
Freeze	0
Hailstorm	0
Land Subsidence (soil compaction due to subsurface water removal)	0

Hazards	Number of Responses
Solar Storm	0
Tornado	0
Tsunami	0
Volcano	0

* Respondents noted the following additional hazard: Gophers create unstable hillsides

3. Respondents were asked if a severe hazard event occurred today, such that all services were cut off from their home and they were unable to leave or access a store for 72 hours, which items they would have readily available. Below is a summary of responses from the City of Los Gatos respondents:

Table 14-2: Items Readily Available to Respondents

Item that is Readily Available	Responses
Flashlight (with batteries)	21
Blanket(s)	19
First Aid Kit	19
Canned / Non-perishable Foods (ready to eat)	16
Portable AM/FM Radio (solar powered, hand crank, or batteries)	16
Portable Water (3 gallons per person)	14
Extra Medications	12
Cash	12
Handheld “Walkie-Talkie” Radios (with batteries)	7
What else is in your emergency kit? *	5
Important Family Photos/Documentation in a water and fire proof container	5

* Respondents noted the following additional items in their emergency kits: matches, firewood, propane tank for cooking, gas generator, pet supplies, sleeping bags, tent, and water purification

4. Respondents were asked if they were familiar with the special needs of their neighbors in the event of a disaster situation.

- 15, or **71.4%** of respondents, answered that they **are not** familiar with the special needs of their neighbors.
- 6, or **28.6%** of respondents, answered that they **are** familiar with the special needs of their neighbors.

5. Respondents were asked if they are trained members of their Community Emergency Response Team (CERT).

- 7, or **33.3%** of respondents indicated that they **are part of CERT**.

- 12, or **57.1%** of respondents, indicated that they are not part of CERT, but **would like to learn more about CERT.**
- 2, or **9.5%** of respondents, indicated that they are not part of CERT and **are not interested** in being a trained CERT member.

Respondents were asked to share why they are a trained CERT member, or why they are not part of CERT. The received responses are listed below:

- Have not heard of CERT
- I am CERT trained so that I am in a better position to help both my own family as well as the local community at large.
- My wife is CERT trained
- Did not know about this
- My son is a member of CERT

6. Respondents were asked what the most important thing local government can do to help communities be more prepared for a disaster. The following summarizes the 16 responses received:

- **Communicating**
- **Emergency preparedness plans**
- **Disseminate information about citizen preparedness**
- **Supply emergency survival equipment at reasonable costs**
- **Plan a “Get Prepared” day/event**
- **Promote CERT and neighborhood community response teams**
- **Build emergency sheds to be used by CERT personnel**
- **Citizen training/education**
- **Database of residents with special needs**
- **More restrictive building and zoning codes**

7. Respondents were asked if they live in an apartment building or home with a living space above a garage or parking area.

- 15 or **71.4%** of respondents indicated that they **do not** live in an apartment or home with living space above a garage or parking area.
- 6, or **28.6%** of respondents, indicated that they **do** live in an apartment building or home with living space above a garage or parking area.

Those respondents who indicated that they do live in an apartment building or home with living space above the garage or parking area were asked to describe their level of concern for the building to collapse in a large earthquake event. 4 respondents indicated “Moderate Concern”, 1 respondent indicated “Little Concern”, and 1 respondent indicated “No Concern”.

8. Respondents who are homeowners were asked if they have adequate homeowners insurance to cover the hazards that could impact their home. Below is a summary of responses:

Table 14-3: Adequate Homeowners Insurance

Answer	Responses
Yes, my insurance coverage should be adequate	12
No, I don't believe my insurance coverage would be adequate for a major disaster	4
Unsure	3
I do not have an insurance policy	0
Not applicable, I rent my current residence	2

9. Respondents were asked if they have earthquake insurance. Below is a summary of responses:

Table 14-4: Earthquake Insurance

Answer	Responses
Yes, I own my home and have earthquake insurance.	8
Yes, I rent my home and have earthquake insurance.	0
No, but I am interested in reviewing earthquake insurance options.	3
No, earthquake insurance is too expensive.	8
No, I do not need earthquake insurance.	2

10. Respondents were asked if they have flood insurance. Below is a summary of responses:

Table 14-5: Flood Insurance

Answer	Responses
Yes, I own my home and have flood insurance.	3
Yes, I rent my home and have flood insurance.	0
No, but I am interested in reviewing flood insurance options.	3
No, I do not need flood insurance	14

11. Respondents indicated the following as additional insurance listed for their home or property:

- **Water Damage**
- **Fire**
- **Umbrella liability policy**
- **Complete Homeowner's insurance**

12. Respondents were asked what they are doing to their property or within their home to reduce future damage from the hazards identified above. Below is a summary of responses:

Table 14-6: Property Changes to Reduce Future Damage from Hazards

Property Mitigation	Responses
Defensible space landscaping (clear vegetation around house to reduce wildfire risk)	12
Roof retrofit using fire resistant material	6
Seismic retrofit of the structure and/or foundation	4
Installed backflow prevention devices	4
Other *	2
Strengthened Openings to reduce high hazard wind risk	2
House elevation or first floor modification to prevent flood damage	2

*The responses to “Other” were: “installed drainage in yard” and “I would like to see our HOA install fire resistant roofing.”

13. Respondents were asked if they work in Santa Clara County.

- 14, or **66.7%** of respondents, indicated that they **do** work in Santa Clara County.
- 7, or **33.3%** of respondents, indicated that they **do not** work in Santa Clara County.

14. Respondents were asked if their place of work is in an area susceptible to natural hazards.

Below is a list of natural hazards and responses from survey respondents:

Table 14-7: Place of Work in Hazard Areas

Natural Hazard	Response
Earthquake fault zone	7
Other	7
I don't know	5
High-risk flood zone	4
Liquefaction zone	2
Wildland Urban Interface (wildfire risk area)	2
Landslide Risk Area	1

* The response to “Other” was: “near airport, crash possible.”

15. Respondents were asked if their employer has a plan for disaster recovery in place.

- 9, or **56.3%** of respondents, **indicated that their employer does have a disaster recovery plan in place.**
- 4, or **25%** of respondents, **indicated that their employer does not have a disaster recovery plan in place.**
- 3 respondents were unsure if their employer has a disaster recovery plan in place.
- 5 respondents skipped this question.

16. Respondents were asked if their employer has a workforce communications plan to implement following a disaster so they may contact their employees.

- 5, or **31.3%** of respondents indicated that their **employer does** have a workforce communications plan.
- 6, or **37.5%** of respondents indicated that their **employer does not** have a workforce communications plan.
- 5, or **31.3%** of respondents indicated that they are **unsure** if their employer has a workforce communications plan.
- 5 respondents skipped this question.

17. Respondents were asked to list any studies that they are aware of being conducted within their community or the county regarding the risk to future hazard events. 8 respondents replied to this question. These answers are summarized below. 13 respondents skipped this question.

- **Lexington Dam**
- **Hillside evacuation plan**
- **Dam inundation maps**
- **URM buildings**
- **Flood maps**
- **Ground shaking/Liquefaction maps**

18. Respondents were asked what recommendations they have for Santa Clara County and the incorporated cities to improve identification, prioritization, and implementation of actions intended to reduce future damage and increase resiliency. The following recommendations were received:

- Require hydrants in all mountain areas
- Educate citizens
- Retrofit
- Encourage HOAs to retrofit with fire resistant roofing
- Low interest loans for retrofits

19. Respondents were asked to recommend any companies or local associations that should be involved in the Santa Clara County hazard mitigation planning process. The recommended organizations are listed below and were given the opportunity to review the draft plan as noted in the following section.

- Fire Department
- Police Department

20. Respondents were asked if they would like to review and comment on a draft of their jurisdictions annex to the Multi-Jurisdictional Multi-Hazard Mitigation Plan.

- 8, or **42.1%** of respondents **said they would** like to review and comment on the draft plan.

- 11, or **57.9%** of respondents said **they would not** like to review and comment on the plan draft.
- 2 respondents skipped this question.

Eight respondents who said they would like to review and comment on the draft plan included their contact information and were given the opportunity to review the draft plan as noted in the following section.

21. Respondents were asked to provide any additional comments/suggestions/questions. The responses are summarized below:

- Communication seemed to be the major problem during the Lexington fire and '89 earthquake. Normal 2 way radios did not work well in the hills and many HAM radio operators were used. This should be part of our plan.
- This is a very good beginning and hope it will bring better results.

Review Opportunities

Upon completion of the draft annex, the Town conducted a public review period from April 1 – 4, 2011. The draft annex was posted on the Santa Clara County Office of Emergency Services website as well as the Town of Los Gatos Website. An email distribution announcing the public review period was sent to the following extended stakeholders:

- Town of Los Gatos and Monte Sereno Community Emergency Response Team (CERT)
- Town of Los Gatos and Monte Sereno Poilce Department
- Santa Clara County Fire Department (that serves Los Gatos)
- Los Gatos Union School District
- Los Gatos-Saratoga Joint Union High School District
- Campbell Union High School District
- Cambrian School District
- Campbell Union School District
- Fremont Union School District
- Los Gatos Chamber of Commerce
- City of Monte Sereno Town Manager
- Los Gatos El Camino Hospital
- Good Samaritan Hospital
- Eight interested community members

One comment was received during the public review period from Good Samaritan Hospital noting their appreciation for the opportunity to review this plan. The hospital stated they will include a copy of this plan with their planning documents for reference.

Copies of the website postings and email distributions are included in Section 13.7, Los Gatos Attachment 1: Outreach Materials.

14.3 CAPABILITY ASSESSMENT

14.3.1 Mitigation Progress

The Town of Los Gatos participated in ABAG's revision of the regional strategies for development of this annex. Appendix G of Taming Natural Hazards presents a summary list of mitigation strategies with regional priorities and the hazards mitigated.

The Town ranked those strategies in a spreadsheet provided by ABAG using the following scale:

Existing Program

Existing Program, Underfunded

Very High – Unofficial Program – Becomes Official on Plan Adoption, No Funding Needed

High – Actively Looking for Funding

Moderate

Under Study

Not Applicable, Not Appropriate, or Not Cost Effective

Not Yet Considered

Results of this ranking may be viewed online at

<http://www.abag.ca.gov/bayarea/eqmaps/mitigation/strategy.html>. A summary of these rankings is presented in Los Gatos Attachment 2: Los Gatos Strategies 2010, in Section 13.7.

The countywide Local Planning Team reviewed the priorities as ranked by the participating Santa Clara County jurisdictions to determine the operational area goals and objectives. The Town of Los Gatos' primary objective is to maximize the community's potential to prevent against, prepare for, respond to, and recover from both natural and man-made disasters. New mitigation actions that the Town of Los Gatos has identified are discussed in Section 14.5.

14.3.1.1 Completed projects

The Town of Los Gatos constructed a new Police Operations Building in 2009 to have a modern, structurally, and seismically safe building, which is used as the Town's Emergency Operations Center. Over the past five years, the Town has undertaken an engineering analysis and evaluation of the Neighborhood Center Building in accordance to the new building and seismic codes.

14.3.1.2 Current projects

The Town of Los Gatos is currently constructing a new public library. This new library is designed based on current California Building Codes and meets the structural seismic code guidelines. The Town has constructed retaining walls on the hillside above the library to protect the roadway and

embankments from impacting the new library. Based on the library’s location with the wildland urban interface fire area, the design incorporated fire preventive site design, emergency access, fire-safe landscaping and building materials, and fire suppression techniques, such as ensuring that fire department apparatus has clear access to all sides of the building.

14.3.2 Staff and Organizational Capabilities

14.3.2.1 Departmental Responsibilities

The Town of Los Gatos operates several departments with capabilities for implementing hazard mitigation strategies. These departments and their roles and responsibilities are summarized in the following table.

Table 14-8: Key Departments in the Town of Los Gatos

Key Departments in the Town of Los Gatos
Departments
<p>Community Development Department The Community Development Department is responsible for all current and advanced planning, redevelopment, code enforcement, building inspection, and other development-related activities. Department programs include Planning, Building, and Code Compliance and Inspection Services.</p> <ul style="list-style-type: none"> ○ Planning ○ Building <p>The Building Division helps to ensure health, safety and welfare of the citizens, property owners and visitors of the Town of Los Gatos. The Building Division is responsible for plan review of all new construction, additions and remodels for both commercial and residential properties and construction inspection services for all projects including electrical, plumbing and mechanical installations. We ensure compliance with state and local codes, policies, guidelines and standards of all residential and commercial structures within the Town limits.</p> <p>• GIS/Mapping Service GIS Mapping service division is responsible for maintaining and updating the Town’s Basemap and Limit Lines with the help of various external agencies. The division also helps in preparing various maps for Police and other departments within the town such as flood zone maps, fire zone maps, emergency evacuation maps, storm maps, etc.</p> <p>• Finance Department Coordinates the annual audit of the Town's financial statements and preparation of the Comprehensive Annual Financial Report (CAFR).</p> <p>• Parks and Public Works The Parks and Public Works Department (PPW) is responsible for maintaining the Town's public parks, facilities, and infrastructure. The department is comprised of five organizational units: Administration,</p>

Engineering & Capital Projects, Parks & Forestry, Facilities and Streets & Signals. Our goal is to efficiently provide residents, businesses and visitors with the highest quality service possible, with dedication and professionalism.

- **Engineering Services**

Engineering Services consists of two program units, Engineering Program Services and Engineering Development Services.

Engineering Program Services provides support services for the maintenance and operation of the Town's infrastructure that is not related to private development projects. This includes design, construction management and administration of the Capital Improvement Program (CIP).

Engineering Development Services, in coordination with the Town's Community Development Department, provides support services for private development projects to ensure these projects are in compliance with Town standards, as well as other regulations.

- **Capital Improvement Program**

The Fiscal Year 2010/11 – 2014/15 Capital Improvement Program (CIP) is a comprehensive five-year capital improvement plan designed to develop and identify projects and the associated funds required to adequately develop and maintain the Town's infrastructure and future capital projects.

Police Services

The Police Department provides core services such as response to emergency and non-emergency calls for service; identification of criminal activity, dispatch services; investigation and prosecution of crimes; recruiting, hiring and training of personnel; crime prevention and community outreach; traffic safety; maintenance of records, property and evidence and community problem solving.

- **Emergency Preparedness**

The Police Department provides leadership for emergency preparedness programs including Community Emergency Response Team (CERT) and Los Gatos Prepared. The Police Department also coordinates with the Santa Clara County Fire Department to manage the Emergency Operations Center and maintains and revises the master Emergency Operations Plan (EOP) on an annual basis. The Police Department is the lead trainer for all Town staff on NIMS, SEMS and ICS, functional and tabletop exercises, as well as general preparedness and safety topics. Through the County operational area, the Police Department provides input on hazardous mitigation initiatives that would affect the Town of Los Gatos.

Code Compliance Division

The Town of Los Gatos operates in compliance with many written codes that are designed to maintain a healthy and clean environment, carry out land use policy, preserve the quality of life standards, and provide a safe community that residents and businesses enjoy.

The Code Compliance Program reviews and responds to code compliance inquiries by the order they are received. Inquiries regarding life, safety, and health issues are given immediate priority.

With a clear hazard mitigation strategy, as outlined in this Local Hazard Mitigation Plan, the Town's departments are able to implement their ongoing policies and programs with consideration of the

identified hazard risks. In addition, these departments become aware of priority mitigation actions and can offer resources (financial or staffing) to assist with the implementation of those actions.

14.3.2.2 Technical Capability

For a successful mitigation program, it is necessary to have a diverse breadth of staff and technical capabilities. Planners, engineers, building inspectors, emergency managers, floodplain managers, people familiar with Geographic Information Systems (GIS), and grant writers are all essential to implementing mitigation actions. The following table summarizes the staffing capabilities available within the Town of Los Gatos.

Table 14-9: Technical Capability Matrix

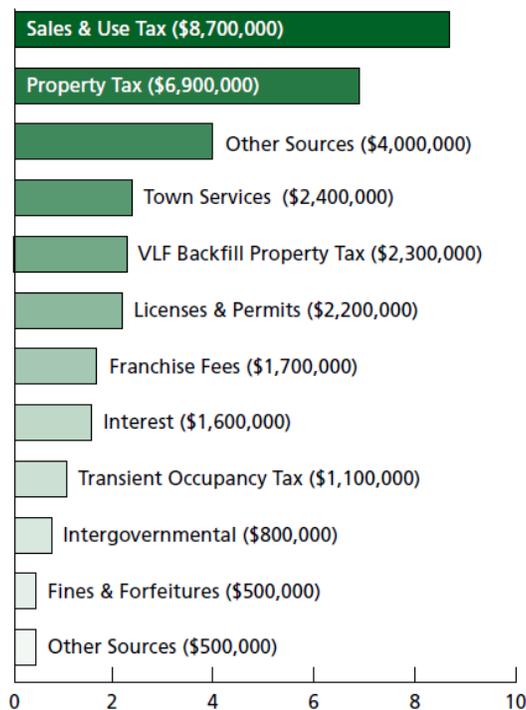

Technical Capability Matrix	
<i>Land Use Planners</i>	Planning
<i>Emergency manager</i>	Police Department. Community Development, Parks and Public Works, Community Services, Town Manager’s Office, Finance Department, Library and Santa Clara County Fire Department assist the Police Department with Emergency Management functions.
<i>Civil or Building Engineers</i>	Building, Public Works
<i>Floodplain manager</i>	Parks and Public Works
<i>Staff knowledgeable about hazards</i>	Community Development (Planning and Building Divisions), Parks and Public Works, Police Department and the Santa Clara County Fire Department
<i>GIS staff</i>	GIS/Mapping Services
<i>Grant writers</i>	Community Development, Parks and Public Works, Community Services, Town Manager’s Office, Finance Department, Library and the Police Department prepare grants

	relative to their operations.

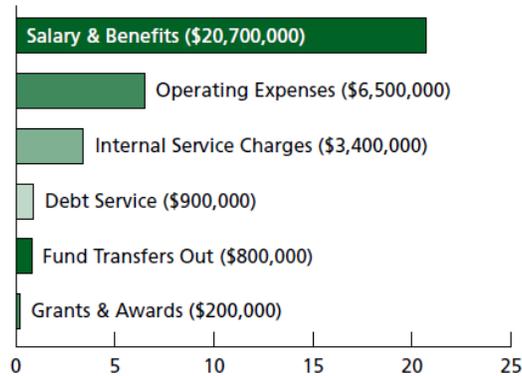

14.3.2.3 Fiscal Capability

The following summarizes Los Gatos' fiscal capabilities in terms of the Town's financial resources and allocated spending. Sales & Use Tax and Property Tax are the primary sources of Los Gatos' financial resources. The Town has allocated the majority of financial resources to Salaries & Benefits, Operating Expenses, and Internal Service Charges.

14.3.2.4 Policy or Program Capability

The Town of Los Gatos has several plans and ordinances in place which provide ample opportunities for implementing the hazard mitigation strategy outlined in this plan.

14.3.2.4.1 Summary of Plans that Support Hazard Mitigation

Emergency Operations Plan

The Town of Los Gatos' Emergency Operations Plan (EOP):

- identifies hazards that exist in Los Gatos and the likelihood that they will occur in the town,
- outlines the strengths and weaknesses of the municipality in its preparedness activities, and
- guides the town and departmental agencies through a response to any emergency and through the recovery process of a disaster.

Two purposes of Los Gatos' EOP are to enhance the development of Local Hazard Mitigation Planning on an ongoing basis and to support collaboration efforts between municipal staff and external partners such as fire services, law enforcement, utility organizations, colleges, community groups, and volunteers. The plan is designed to address the needs of all people located in Los Gatos when a disaster happens. An outline of the EOP as it relates to hazard mitigation is provided below.

Hazard Analysis- The EOP ranks hazards by their likelihood to occur in Los Gatos and the severity of the hazard if it were to occur. The hazards listed in the EOP include: aviation disaster, civil disturbance, dam failure, earthquake, extreme weather/storm, floods, landslides, HAZMAT, heat wave, public health emergency, terrorism, transportation-highway, wildfire/forest fire.

Prevention & Mitigation- The EOP lists hazard specific mitigation actions to take in order to reduce the severity of damage that may result from the hazards listed above. The hazards and the hazard specific mitigation actions are listed below.

1. Earthquake
 - Inspect all structures for non-structural hazards and mitigate them
 - Provide Disaster Home Preparedness training to Town employees and volunteer responders
 - Continue community education efforts (CERT and Los Gatos Prepared)
2. Wildfire
 - Promote approved messages about fire safety and vegetation management in vulnerable areas
 - Wildland-Urban Interface Fire Zones Ordinance (as adopted on 2-2-09 by Town Council)
3. Flood
 - Regularly inspect storm drains and keep clean
 - Annual updates by Santa Clara Valley Water District

4. Dam Failure

- Plan for continuity of government in the event of a failure and Town Hall is destroyed
- Implement a Public Warning System
- Implement an Evacuation Plan
- Inform residents in the inundation zone on methods of evacuation and communication

5. Heat Wave

- Supervisors of Town employees must ensure that employees receive sufficient breaks and water if working outdoors
- Cooling centers are promoted to the public

6. Public Health Hazards

- During outbreaks of contagious disease follow directions from the County Public Health Department
- Encourage social distancing and proper hygiene
- Ill employees must be sent home or to medical care
- Increase the availability of public education campaigns
- Encourage school surveillance processes

7. Hazardous Materials

- Encourage familiarity with MSDS binders in the workplace
- Train staff to store, use, and dispose of hazardous materials properly
- Promote safe disposal of hazardous materials in the community
- Promote education in large population buildings, shopping centers, and schools regarding the Shelter in Place protocol for hazardous materials emergency

8. Terrorism

- Train staff to recognize suspicious packages and/or boxes, particularly those who process the mail
- Train residents to be aware of the surroundings and to be willing to report suspicious activity to the Police Department

Preparedness- The Preparedness section of the EOP details the Los Gatos emergency organization, including the role of the Disaster Council, Town Council, Mayor, and Director of Emergency Services. The plan also details the organization and roles of other Town agencies and volunteers working in the field and at emergency operations centers. The organization and role of Santa Clara County, the State of California, and federal agencies is also documented in this plan. The Preparedness section also provides brief explanations of other hazard mitigation related documents; such as flood and wildfire evacuation plans, a heat wave plan, Local Hazard Mitigation Plan, a Points of Distribution Plan, a Public Health Disaster Plan, a Terrorism/WMD Plan, and a Volunteer

Management Plan. Preparing and educating the public is deemed a responsibility of the American Red Cross, Los Gatos CERT, and Santa Clara County Fire Department in this section of the plan. Los Gatos also holds an annual public outreach campaign called Los Gatos prepared, which is designed to inspire the public to be ready for an earthquake. Methods to protect vital records by using a backup system are documented in this section of the plan.

Response- The Response section of Los Gatos' EOP defines three levels of emergency that can be declared in the town and describes when the EOP and/or Emergency Operations Centers (EOC) are activated. The location and functions of the EOCs in Los Gatos are listed in this section.

Recovery- The mitigation aspect of recovery operations is critical in reducing or eliminating disaster related property damage and loss of lives from reoccurring. The immediate post-disaster period presents a rare opportunity for mitigation. During this time, officials and citizens are more responsive to mitigation recommendations, and unique opportunities to rebuild or redirect development may be available. Recovery plans would benefit from addressing mitigation planning as part of the recovery process. Changes in building codes, variances or set-backs in construction, zoning (to reduce types of construction in high hazard areas), and relocation or removal of structures from high hazards zones are some forms of mitigation that may aid in hazard mitigation in the future.

General Plan

Safety Element

The Safety Element provides goals, policies, and actions intended to protect the community from risks associated with the effects of seismic and other geologic hazards, urban and wildland fires, flooding and dam inundation, and emergency preparedness.

In areas that are identified as Very High Fire Hazard Areas on the Town's Wildland Fire Severity Zone Map the town will provide secondary emergency access that will not increase traffic. Hazard Areas on the adopted Wildland Fire Severity Zone map demonstrate an acceptable means of emergency access prior to approval.

- Geologic Hazards, including earthquakes, ground shaking, liquefaction and landslides- Los Gatos aim to minimize exposure to geologic hazards, including slope instability, subsidence, and expansive soils, and to seismic hazards including groundshaking, fault rupture, liquefaction and landslides.

The town will periodically update geologic, seismic and geotechnical maps. Periodically identify and retest, if needed, those bridges whose destruction would cause serious access problems after an earthquake. The town will work with facility owners to periodically ensure that they conduct a study to evaluate the condition of each building and structure in Town whose use and function are essential in response to a major earthquake are safe. The Town Code will be amended to reduce the permitted

gradient for roads in areas determined to be high risk landslide or fault zones. The town will update earthquake preparedness information packet in order to, keep it current on an ongoing basis and develop and implement effective means to disseminate it to Town residents and businesses. Los Gatos will create and adopt a Geologic Hazards Checklist to be utilized during the development review process.

- **Urban and Wildland Fire Hazards-** Los Gatos will incorporate fire safety precautions as an integral consideration in planning development. The town will adopt procedures whereby the public will continually be made aware of the Town's policies regarding safety hazards and be conveniently supplied with information, including notification of residents of fire emergency plans for their area. The town will identify the characteristics of the total water supply available in the event of an emergency. The town is developing evacuation plans for high risk fire hazard areas. In reducing fire hazards the town will reduce the potential for injuries, damage to property, economic and social displacement, and loss of life.

- **Flood and Inundation Hazards-** Los Gatos is reducing the potential for injuries, damage to property, economic and social displacement, and loss of life resulting from flood hazards. The town will annually review all areas subject to flooding as identified by FEMA or the State Department of Water Resources.

The town will adopt floodplain zoning to prevent inappropriate development in areas subject to flooding.

- **Hazardous Materials Management-** The town will reduce the potential for injuries, damage to property, economic and social displacement, and loss of life resulting from hazards related to hazardous materials. The town has and will continue to identify businesses within the Los Gatos area that use or store hazardous materials.

- **Emergency Preparedness, Response and Recovery-** Los Gatos will reduce the potential for injuries, damage to property, economic and social displacement, and loss of life resulting from emergencies. The town will adopt specific design criteria for street identification signs, including street names and numbers in rural areas, and change existing signs to comply. The town will create and update as needed a pamphlet an outline to encourage disaster preparedness for neighborhoods and make it available to all residents at Town Hall. The town will regularly update the Town's Emergency Management Plan and make available to distribute to residents and businesses.

The town will provide adequate fire protection and emergency medical response services to Town residents. It will promote coordination between land use planning and fire protection. Los Gatos will reduce the potential for injuries, damage to property, economic and social displacement, and loss of life resulting from crime. The town will promote the coordination between land use planning and law enforcement.

Land Use Element

The General Plan is to act as a constitution for developing, the foundation upon which all land use decisions are to be based. Land use decisions encompass not only zoning, but circulation, design, open space, and other factors. The General Plan is a policy document to assist and guide local decision makers.

Road systems shall be designed to provide reliable access to remote areas both for access by emergency vehicles and egress by residents fleeing from a disaster.

Los Gatos aims to acquire open space areas within the Town of Los Gatos, particularly lands which provide recreational uses and will protect the public health, welfare, and safety of residents and visitors, including lands in flood plains, watershed lands, or lands subject to fire or geologic hazards.

Housing Element

Presently being updated.

Floodplain Management Plan

The Town of Los Gatos has found that flood hazard areas within their jurisdiction are subject to periodic inundation which can result in the loss of life and property, health and safety hazards, disruption of commerce and governmental services, and public expenditures for flood protection and relief. The Town has also found that these flood losses are caused by obstructions in areas of special flood hazard which can increase flood heights and velocities. Therefore, the purpose of the Town's Flood Hazard Area Regulations is to minimize expenditure of public money for costly flood-control projects, the need for rescue and relief efforts associated with flooding, prolonged business interruptions, and damage to public facilities and utilities. The ordinance also ensures that potential buyers are notified that property is in an area of special flood hazard and that those who occupy property in those areas are held responsible for their actions. A floodplain administrator is responsible for the enforcement of this plan.

To reduce flood losses, the ordinance includes methods and provisions to control the alteration of natural floodplains, stream channels, and protective barriers; to control filling, grading, dredging and other development that can increase flood damage; to regulate the construction of flood barriers that can divert floodwaters or increase flood hazards in other areas; and to require that uses vulnerable to floods be protected against flood damage at the time of their construction. One of the provisions of this ordinance is that a development permit must be obtained before construction or development occurs within any area of special flood hazard, area of flood-related erosion hazard, or area of mudslide/mudflow. Construction standards, such as anchoring, building with flood resistant materials, and elevating and floodproofing, are also required. The ordinance enforces that new and replacement water and sanitary sewage systems should be designed to minimize flood water infiltration and discharge into flood waters. Since floodways are extremely hazardous due to the

velocity of floodwaters, no new construction should be developed in these areas, unless certification by a registered civil engineer or architect is provided demonstrating that the proposed development will not increase flood levels. Standards are also included for subdivisions, recreational vehicles, manufactured homes, as well as for mudslide and flood erosion prone areas.

Capital Improvements Plan

Los Gatos’ Capital Improvement Plan identifies numerous projects and associated funds that are required to maintain the Town’s infrastructure and capital improvements. Many of these projects also help mitigate potential hazards. Street and traffic projects such as street lighting, street striping, street repair and resurfacing, sidewalk infill, maintenance of bridges and retaining walls all promote safety for drivers and pedestrians. Utility undergrounding, placing overhead utility lines underground, is done to improve power reliability, especially in the event of a disaster. Projects that include the construction and maintenance of storm drains, which may help prevent a utility mishap and also mitigate flooding, are also included in Los Gatos’ CIP. One project that is designed to reduce risk in the event of an earthquake is the Roberts Road Bridge Replacement. The new bridge is to be built with utility lines inside the structure and with an increased level of seismic protection. A new police facility that includes room for an Emergency Operations Center (EOC) is also part of Los Gatos’ CIP. The EOC will help the Town be better prepared in the event of a disaster.

14.3.2.4.2 Summary of Ordinances that Support Hazard Mitigation

Table 14-10: Summary of Ordinances that Support Hazard Mitigation

Availability of Ordinances that Support Hazard Mitigation								
<i>Jurisdiction</i>	<i>Flood Damage Prevention Ordinance</i>	<i>Zoning Ordinance</i>	<i>Subdivision Ordinance</i>	<i>Post-disaster Red/Rec. Ordinance</i>	<i>Building Code</i>	<i>Fire Code</i>	<i>National Flood Insurance Program</i>	<i>NFIP Community Rating System</i>
<i>City of Los Gatos</i>	Yes	Yes	Yes	Under Preparation	Yes	Yes	Yes	No

The Town of Los Gatos identified several ordinances and policies currently utilized for hazard mitigation in the matrix of regional mitigation strategies prepared by ABAG as part of the 2010 plan update. Below is a summary of these key ordinances and policies.

Emergency Operations Plan

The Emergency Operations was identified as a method for implementing hazard mitigation strategies. This plan is reviewed as how it pertains to hazard mitigation in the Emergency Operations Plan section above.

Ordinance 2156

The Ordinance Numbered 2156 is to replace the old set of building and fire codes in the Town of Los Gatos Municipal Code (Chapters 6 and 9) with the new and updated building and fire codes. These new codes are adopted by the Town of Los Gatos to be consistent with the State of California and other local municipalities. One of the key changes in this ordinance is that there are eleven new building codes the California Building Standards Commission approved, and the local jurisdictions are required to adopt these codes.

California Building Code and California Fire Code Resolution 2007-123

This is the resolution of the Town Council of the Town of Los Gatos making findings for modifying uniform building and fire codes. The resolution identifies climatic, geological, and topographical conditions. Due to these climatic, geological, and topographical conditions, mitigation measures are necessary such as automatic fire suppression systems, communications systems, access to buildings, seismic protection, safety controls for hazardous materials and other safe guards in order to minimize the risks to citizens, firefighters, and property resulting from the severity of fire threat and potential delays in responding to such threats.

Chapter 12 Town of Los Gatos Code – Grading, Erosion and Sediment Control

The purpose of this chapter is to promote and protect the public interest by regulating land disturbances, landfill and soil storage in connection with the clearing and grading of land for construction. The intent of this chapter is to establish administrative procedures, minimum standards of review and implementation and enforcement procedures for the protection and enhancement of the water quality of watercourses, water bodies and wetlands, natural and manmade, by controlling erosion, sedimentation, increases in surface runoff and related environmental damage caused by construction-related activities, and to ensure that the intended use of a graded site is consistent with the Town general plan, and any specific plans adopted thereto and applicable Town ordinances. This chapter applies only to private property.

14.3.3 National Flood Insurance Program

For decades, the national response to flood disasters was simply to provide disaster relief to flood victims. Funded by citizen tax dollars, this approach failed to reduce losses and didn't provide a way to cover the damage costs of all flood victims. To compound the problem, the public generally

couldn't buy flood coverage from insurance companies, because private insurance companies consider floods too costly to insure. In the face of mounting flood losses and escalating costs of disaster relief to U.S. taxpayers, Congress established the National Flood Insurance Program (NFIP). The goals of the program are to reduce future flood damage through floodplain management, and to provide people with flood insurance. Community participation in the NFIP is voluntary.

The Town of Los Gatos has participated in the National Flood Insurance Program since 1976. All residents of the Town are eligible to purchase federal flood insurance. The Town continues to maintain full compliance with the NFIP.

The Town of Los Gatos assists the Santa Clara Valley Water District in providing background data needed to update FIRM maps and distributes FIRM map information by telephone and over the counter to those requesting it. The Town also requires hydraulic studies be performed to identify location specific floodplain elevations and requires that development be provided outside the floodplain for areas of concern as shown on FIRM maps. Flood prevention is important to the community, and Los Gatos will continue to perform NFIP tasks as defined above into the future.

Projects adjacent to 1% annual chance special flood hazard areas identified on FIRM maps are required to provide hydrologic and hydraulic studies to identify the base flood plain elevation. Consultants preparing such studies use Town provided GIS topography and aerial photography to identify drainage basin boundaries and hydrologic characteristics. The Town also requires a field survey of creek cross sections at the development site. Development approvals then restrict development to be outside of the identified flood plain.

There are areas of the Town that have little or no storm drain improvements. In these areas, drainage occurs as overland flow. Many of these areas are within County pockets or recently annexed pockets. FIRM maps do not identify specific floodplain elevations in these areas and they are difficult to model.

There have been no issues with community participation in the NFIP program.

14.3.3.1 Community Rating System (CRS)

The CRS is a voluntary part of the National Flood Insurance Program that seeks to coordinate all flood-related activities, reduce flood losses, facilitate accurate insurance rating, and promote public awareness of flood insurance by creating incentives for a community to go beyond minimum floodplain management requirements. The incentives are in the form of insurance premium discounts. CRS ratings are on a 10-point scale (from 10 to 1, with 1 being the best rating), with residents of the community who live within FEMA's Special Flood Hazard Areas (SFHA) receiving a 5% reduction in flood insurance rates for every Class improvement in the community's CRS rating.

The Town of Los Gatos has not joined the Community Rating System. Therefore, property owners in the Town do not receive reduced flood insurance rates. All insurance rates are based on where the structure is located in FEMA’s Flood Insurance Rate Maps (FIRMs). The most recent Digital FIRMs were adopted by the Town on May 18, 2009.

14.3.3.2 Repetitive Loss Properties

The Federal Emergency Management Agency (FEMA) insures properties against flooding losses in the Bay Area through the [National Flood Insurance Program](#).

As part of the process to reduce or eliminate repetitive flooding to structures across the United States, FEMA has developed an official Repetitive Loss Strategy. The purpose behind the national strategy is to identify, catalog, and propose mitigation measures to reduce flood losses to the relatively few number of structures that absorb the majority of the premium dollars from the national flood insurance fund.

A *repetitive loss property* is defined by FEMA as “a property for which two or more National Flood Insurance Program losses of at least \$1,000 each have been paid within any 10-year period since 1978.”

The Town of Los Gatos has one repetitive flood loss property. The following is a table summarizing repetitive losses in the Town. The property in question is located along Shannon Road and has suffered from flooding as a result of a blocked drainage channel. This drainage channel has been cleared of trash and obstacles. There has been no flooding experienced since then.

City and County	Total Payments (\$)	Average Payment (\$)	Losses	Properties	Properties (as of 2004)
Los Gatos	5,393.99	2,697.00	2	1	1

Source: <http://quake.abag.ca.gov/mitigation/floodloss/>

14.3.4 Resource List:

Documents used in the assembly of this Capability Assessment include: Town website, Town Budget, Emergency Operations Plan, General Plan, Floodplain Management Ordinance, Capital Improvements Plan, Ordinance 2156, California Building Code and California Fire Code Resolution 2007-123, Chapter 12 Town of Los Gatos Code – Grading, Erosion and Sediment Control.

14.4 VULNERABILITY ASSESSMENT

14.4.1 Critical Facilities

During the development of this 2011 annex, the Town identified 24 critical facilities and provided this list to ABAG in participation with the regional planning process. A summary listing of these facilities is shown in Table 14-11.

Table 14-11: Town of Los Gatos Critical Facilities

Facility Name	Address	Critical Function
Vacant Lot	100 Belwood Gateway	FIRST RESPONSE

This list of critical facilities and available information for them is available digitally in an excel spreadsheet from the Town. A complete printing of the critical facilities data is included in Los Gatos Attachment 3: Los Gatos Exposure Analysis.

14.4.2 Exposure Analysis

Exposure analyses are used to quantify assets which are “exposed” to risk. This is the first step towards understanding the complete value of assets at risk to identified hazards. This section includes an exposure analysis (discussion of assets at risk) for the profiled hazards in Section 4.

Overlay analyses (using GIS) were conducted for the mappable hazards such as wildfire, flood, and the earthquake related hazards. These analyses compare the location of the critical facilities with the mapped hazard area (i.e. floodplains, wildfire threat zones, shaking potential areas, etc.) and result in a listing of which facilities are at most risk to which hazard. Not all hazards are mappable and some hazards, such as drought, are equally likely throughout the entire County. For these hazards, a general exposure summary is presented in Section 13.4.2.1.

14.4.2.1 General Exposure

ABAG’s website (<http://quake.abag.ca.gov/mitigation/landuse/>) presents the results of the regional exposure analysis through a searchable online database. Users can view the summaries of land use and infrastructure exposed to the mappable hazards. This section presents the general summary of landuse and infrastructure in the Town of Los Gatos. These should be considered at risk to the hazards of equal likelihood throughout the entire County geography (i.e. drought, extreme heat, thunderstorm, etc).

14.4.2.2 Critical Facilities Exposure by Hazard

ABAG's website (<http://quake.abag.ca.gov/mitigation/cf2010/>) presents the results of the regional facilities exposure analysis through a searchable online database. Users can view the summaries of how many facilities are exposed to the mappable hazards by category: health care facilities, schools, critical facilities, and bridges/interchanges. For the purposes of developing a Town specific mitigation strategy, this section identifies which of the Town's critical facilities are located in the mapped hazard areas.

The complete results from ABAG's exposure analysis are available digitally in an excel spreadsheet from the Town. A complete printing of these results is included in Los Gatos Attachment 3: Los Gatos Exposure Analysis.

Soft Story Multi-Family Dwellings

In 2003, the Collaborative for Disaster Mitigation at San Jose State University completed an “*Inventory of Soft-First Story Multi-Family Dwellings in Santa Clara County*”. At that time, the Town of Los Gatos had 96 soft-first story multi-family buildings including 2,967 residential units housing 7,418 occupants. Figure 14-1 below identifies the locations of these buildings.

The Town of Los Gatos is concerned with inundation from Lexington Reservoir.

14.4.2.2.7 Disease Outbreak

All populations, facilities, and assets are equally at risk to impact from disease outbreak. The Town of Los Gatos does not have any unique concerns regarding the hazard of disease outbreak as presented in Section 4.

14.4.2.2.8 Freeze

All populations, facilities, and assets are equally at risk to impact from freeze occurrences. The Town of Los Gatos does not have any unique concerns regarding the hazard of freeze as presented in Section 4.

14.4.2.2.9 Wind

All populations, facilities, and assets are equally at risk to impact from high winds. The Town of Los Gatos does not have any unique concerns regarding the hazard of wind as presented in Section 4.

14.4.2.2.10 Heat

All populations, facilities, and assets are equally at risk to impact from extreme heat events. The Town of Los Gatos does not have any unique concerns regarding the hazard of heat as presented in Section 4.

14.4.2.2.11 Agricultural Pest

Agricultural pests are not of particular concern to the Town of Los Gatos.

14.4.2.2.12 Thunder and Lightning

All populations, facilities, and assets are equally at risk to impact from thunder and lightning events. The Town of Los Gatos does not have any unique concerns regarding the hazard of thunder and lightning as presented in Section 4.

14.4.2.2.13 Siltation – Bay Area

Siltation is not of particular concern to the Town of Los Gatos.

14.4.2.2.14 Tornado

All populations, facilities, and assets are equally at risk to impact from tornado occurrences. The Town of Los Gatos does not have any unique concerns regarding the hazard of tornado as presented in Section 4.

14.4.2.2.15 Hazardous Materials

Hazardous Materials spills are not of particular concern to the Town of Los Gatos.

14.4.2.2.16 Landslide and Debris Flow

Landslide and Debris Flow is not of particular concern to the Town of Los Gatos.

14.4.2.2.17 Other Hazards

Land Subsidence is not of particular concern to the Town of Los Gatos.

Expansive Soils are not of particular concern to the Town of Los Gatos.

Hailstorms are not of particular concern to the Town of Los Gatos.

Tsunami is not a hazard of concern for the Town of Los Gatos.

Volcano eruptions are not a hazard of concern for the Town of Los Gatos.

14.5 MITIGATION ACTIONS

14.5.1 Primary Concerns

Based on the exposure analysis, the most critical facilities in the Town of Los Gatos are at risk of being impacted by ground shaking. This is the Town's primary concern. Additionally significant critical facilities are at risk to riverine flooding, wildfire, fault rupture, and dam failure inundation. The Town is mitigating flood risk on an ongoing basis through the floodplain management plan and participation in the NFIP. Several first responder facilities are at risk of dam failure inundation and riverine flooding.

14.5.2 Mitigation Actions

In addition to participating in the Local Planning Team and supporting the implementation of the prioritized county-wide mitigation actions, the Town of Los Gatos identified the following potential mitigation actions for implementation within the City.

Soft-Story Buildings

Action #1: The Town will inventory and map, using GIS, the location of soft-story buildings. The maps will be available to first responders during emergencies.

Action #2: The Town will also consider developing a retrofit grant program for building owners. The grant program would be made more possible if the Town is able to secure mitigation grants through having an adopted Hazard Mitigation Plan. This project would also be consistent with General Plan Safety Element Policy SAF Policy 1.5, which calls for the Town to provide incentives for seismic retrofits of structures.

Wildfire

Action #1: The Town will coordinate with Santa Clara County Fire Department to develop and distribute fire prevention preparedness education information, including evacuation plans for residents. This project would also be consistent with General Plan Safety Element SAF Action 3.3.

Dam Failure

Action #1: The Town will coordinate with surrounding jurisdictions that are in the inundation area of the Lexington Reservoir Lenihan Dam to implement a siren warning system.

Action #2: Marketing and public education campaigns for dam failures will also be implemented.

The Town's Emergency Management Team will review the STAPLE/E criteria to evaluate these identified actions and assign a priority ranking for implementation.

14.6 PLAN MAINTENANCE

The Town of Los Gatos Community Development Department will be responsible for ensuring that this annex is monitored on an on-going basis. However, the major disasters affecting Los Gatos' community, legal changes, notices from ABAG (as the lead agency in this process), notices from Santa Clara County (lead agency for the County-wide Annex), and other triggers will be used as well. Finally, the Annex will be a discussion/work item on the Town's Emergency Operations Center agenda each year, and department heads and other emergency preparedness staff, who serve in the Town's Emergency Operations Center, will focus on evaluating the Annex in light of technological and political changes that may occur during the year or other significant events. This group, in collaboration with Santa Clara County, will be responsible for determining if the plan should be updated.

The Town of Los Gatos is committed to reviewing and updating this plan annex at least once every five years, as required by the Disaster Mitigation Act of 2000. The Town's Director of Community

Development will contact ABAG four years after this plan is approved to ensure that ABAG plans to undertake the plan update process. If so, the Town plans to participate in the multi-jurisdictional plan. If ABAG is unwilling or unable to act as the lead agency in the multi-jurisdictional effort, other agencies will be contacted, including the Santa Clara County Office of Emergency Services. The jurisdictions within Santa Clara County should continue to work together on updating this multi-jurisdictional plan.

The public will continue to be involved whenever the plan is updated and as appropriate during the monitoring and evaluation process. Prior to adoption of updates, the Town will provide the opportunity for the public to comment on the updates. A public notice will be published prior to the meeting to announce the comment period and meeting logistics. Moreover, the Town will engage stakeholders in community emergency planning, such as the Los Gatos CERT team to assist with identifying which sections of the plan should be updated.

14.7 TOWN OF LOS GATOS APPENDIX

14.7.1 Los Gatos Attachment 1: Los Gatos Outreach Materials

The Town of Los Gatos notified residents and businesses of the hazard mitigation planning process by distributing promotional announcements regarding the public opportunity to respond to the online survey. This Attachment includes those outreach materials.

Subject: Town of Los Gatos Hazard Mitigation Plan: Available for Public Review

This email is being sent to you on behalf of Wendie Rooney, Community Development Director, Town of Los Gatos.

Dear Community Member,

On behalf of the Town of Los Gatos, I am pleased to invite you to download and review the Public Review Draft of the **Santa Clara County Hazard Mitigation Plan 2011 Update, which includes the Town of Los Gatos Annex**. Input from you or your organization will be invaluable to increasing disaster resiliency in our community.

Hazard Mitigation Plan Review DRAFT:

<http://www.sccgov.org/portal/site/oes/agencychp?path=%2Fv7%2FEmergency%20Services%2C%20Office%20of%20%28DEP%29%2FLHMP>

Please take a moment to visit the Santa Clara County Office of Emergency Services website at

<http://www.sccgov.org/portal/site/oes/> (click on the LHMP link on the left hand side) and download the Public Review Draft. This plan is a countywide plan developed in partnership with 13 participating cities and representatives from the private sector. It will be added to the regional plan titled "*Taming Natural Disasters: Multi-Jurisdictional Local Hazard Mitigation Plan for the San Francisco Bay Area*" which may be viewed at <http://quake.abag.ca.gov/mitigation/>.

The purpose of the plan is to identify hazard threats to Santa Clara County and prioritize methods for reducing risks of future damage through specific mitigation actions. Preparation of this plan with approval from the California Emergency Management Agency (Cal EMA) and Federal Emergency Management Agency (FEMA) enables the County and participating jurisdictions to apply for mitigation grant funds per the Disaster Mitigation Act of 2000. You can read more information about this program and mitigation grant funding on the Cal EMA Hazard Mitigation Portal (<http://hazardmitigation.calema.ca.gov/>).

This draft has been submitted to Cal EMA and is undergoing review for compliance with the Disaster Mitigation Act of 2000. Upon receiving Cal EMA & FEMA's comments we will prepare a final plan update for adoption by the Town Council. At this time, we welcome comments from interested agencies and the general public. Comments/suggestions for improvement may be submitted directly to the County's consultant, Corinne Bartshire. **Comments submitted before April 30, 2011 will be reviewed and integrated into the final plan for adoption, as appropriate.** Comments submitted after that date will be recorded for future updates to the plan.

Please forward this message to fellow residents and community members. Comments and questions may be directed to Corinne Bartshire at cbartshire@dewberry.com or (415) 295-7116. Please reference the Los Gatos Annex in your email. We sincerely appreciate your time and cooperation in helping our community become more resilient.

Thank you for your participation!

Local Hazard Mitigation

Santa Clara County is in the process of updating its Local Hazard Mitigation Plan. This plan is an annex to the ABAG regional Hazard Mitigation Plan (see link below). The public review draft of the Santa Clara County Local Hazard Mitigation Plan 2011 Update is now available for comment. Your comments and questions may be directed to the County's consultant: Corinne Bartshire at 415-295-7116 or cbartshire@dewberry.com.

Cities within the County are producing annexes to the County's plan. These will be uploaded as they become available. Please use the links below to download and review the draft plan.

Community Feedback Needed for North 40 Specific Plan

Your input is needed to help guide the development of the North 40 Specific Plan! The parcel is bound by Highway 85 on the north, Lark Avenue on the south, Highway 17 on the west and Los Gatos Boulevard on

the east. Join us for a series of community meetings at Calvary Church, Parkside Room located at 16330 Los Gatos Boulevard, on **Saturday, April 2 at 10 am** and **Wednesday, May 18 at 6 pm**. For more information, contact Senior Planner Suzanne Davis at (408) 354-6875 or sdavis@losgatosca.gov.

Awards and Recognition

Did you know that the Town is regularly recognized for its services and programs. Here are a few of the Town's most recent awards:

- [2010 Sustainability Showcase Award Winner](#)
- 2010 Helen Putnam/Ruth Vreeland Award for Youth Friendly Business Program
- 2009/10 and 2008/09 Government Finance Officers Association (GFOA) Distinguished Budget Presentation Award
- 2008/09 Certificate of Achievement for Excellence in Financial Reporting

WHAT'S NEW!

Read the Region's Draft Disaster Prevention Plan!

Curious to know how the region would respond in the event of a local disaster? The Town, along with other cities in Santa Clara County helped to update the 2011 Local Hazard Mitigation Plan.

Read the Region's Draft Disaster Prevention Plan!

Curious to know how the region would respond in the event of a local disaster? The Town, along with other cities in Santa Clara County helped to update the 2011 Local Hazard Mitigation Plan.

With a grant from the Federal Emergency Management Agency (FEMA), the Santa Clara County Office of Emergency Services has coordinated with cities and major employers to identify potential threats and hazards and develop mitigation strategies. The 2011 updated local hazard mitigation plan is an annex to the regional plan titled "Taming Natural Disasters: Multi-Jurisdictional Local Hazard Mitigation Plan for the San Francisco Bay Area" which may be viewed at: <http://quake.abag.ca.gov/mitigation/>.

You can read and comment on the Santa Clara County Local Hazard Mitigation Plan 2011 Update and Town of Los Gatos Annex by clicking on "Additional Info" link below.

Your comments and questions may be directed to the county's consultant: Corinne Bartshire at 415-295-7116 or cbartshire@dewberry.com. You are encouraged to submit comments prior to April 30, 2011.

Arlene Holmboe
Corinne Bartshire

Thank you for giving us an opportunity to review the Town of Los Gatos Hazard Mitigation Plan. While our main campus is not physically within the city limits of Los Gatos, our Mission Oaks campus is within the city limits.

We will include a copy of This Town of Los Gatos Hazard Mitigation Plan in our planning documents.

Best Wishes

Subject: Town of Los Gatos Hazard Mitigation Plan: Available for Public Review

This email is being sent to you on behalf of Wendie Rooney, Community Development Director, Town of Los Gatos.

Dear Community Member,

On behalf of the Town of Los Gatos, I am pleased to invite you to download and review the Public Review Draft of the **Santa Clara County Hazard Mitigation Plan 2011 Update, which includes the Town of Los Gatos Annex**. Input from you or your organization will be invaluable to increasing disaster resiliency in our community.

Hazard Mitigation Plan Review DRAFT:

<http://www.sccgov.org/portal/site/oes/agencychp?path=%2Fv7%2FEmergency%20Services%2C%20Office%20of%20%28DEP%29%2FLHMP>

Please take a moment to visit the Santa Clara County Office of Emergency Services website at <http://www.sccgov.org/portal/site/oes/> (click on the LHMP link on the left hand side) and download the Public Review Draft. This plan is a countywide plan developed in partnership with 13 participating cities and representatives from the private sector. It will be added to the regional plan titled "*Taming Natural Disasters: Multi-Jurisdictional Local Hazard Mitigation Plan for the San Francisco Bay Area*" which may be viewed at <http://quake.abag.ca.gov/mitigation/>.

The purpose of the plan is to identify hazard threats to Santa Clara County and prioritize methods for reducing risks of future damage through specific mitigation actions. Preparation of this plan with approval from the California Emergency Management Agency (Cal EMA) and Federal Emergency Management Agency (FEMA) enables the County and participating jurisdictions to apply for mitigation grant funds per the Disaster Mitigation Act of 2000. You can read more information about this program and mitigation grant funding on the Cal EMA Hazard Mitigation Portal (<http://hazardmitigation.calema.ca.gov/>).

This draft has been submitted to Cal EMA and is undergoing review for compliance with the Disaster Mitigation Act of 2000. Upon receiving Cal EMA & FEMA's comments we will prepare a final plan update for adoption by the Town Council. At this time, we welcome comments from interested agencies and the general public. Comments/suggestions for improvement may be submitted directly to the County's consultant, Corinne Bartshire. **Comments submitted before April 30, 2011 will be reviewed and integrated into the final plan for adoption, as appropriate.** Comments submitted after that date will be recorded for future updates to the plan.

Please forward this message to fellow residents and community members. Comments and questions may be directed to Corinne Bartshire at cbartshire@dewberry.com or (415) 295-7116. Please reference the Los Gatos Annex in your email. We sincerely appreciate your time and cooperation in helping our community become more resilient.

Thank you for your participation!

Arlene Holmboe

14.7.2 Los Gatos Attachment 2: Los Gatos Strategies 2010

The Town of Los Gatos participated in ABAG's revision of the regional strategies for development of this annex. Appendix G of Taming Natural Hazards presents a summary list of mitigation strategies with regional priorities and the hazards mitigated. The Town ranked those strategies in a spreadsheet provided by ABAG. This is a summary of those rankings.

INFR-a-15	Existing	PD	Standard Operating Procedure

INFR-a-16	Existing Underfunded PD		Town /PD Policy
INFR-a-17	n/a		Only applicable for MTC.
INFR-a-18	Existing Underfunded PD		Standard Operating Procedure
INFR-a-19	Moderate	PPW	No funds currently available for implementing this strategy.
INFR-a-20	n/a		Town is not a fuel provider.
INFR-a-21	n/a		The Town is not an infrastructure operator
INFR-a-22	n/a		Scope of this Strategy is larger than a community the size of the Town can take on. (Regional Initiative)
INFR-b-1	Existing Underfunded PPW		Standard Operating Procedure
INFR-b-2	n/a		Town does not have any existing transportation / infrastructure systems that need retrofitting.
INFR-b-3	Moderate	PPW	Town does not have adequate funding to take this on at this time.
INFR-b-4	n/a	PPW	Not appropriate for pipeline types (SD) owned by Town.
INFR-b-5	n/a		Town doesn't own these types of facilities.
INFR-b-6	n/a		Town doesn't own these types of facilities.
INFR-b-7	Existing Underfunded PPW		Standard Operating Procedure
INFR-b-8	Existing	CDD PPW	Standard Operating Procedure
INFR-b-9	Existing	TMO	Standard Operating Procedure
INFR-b-10	n/a		Town does not have Bay or other water frontage.
INFR-c-1	Existing Underfunded SCCFD		SCCFD works with the San Jose Water regarding these issues
INFR-c-2	Existing	SCCFD	Standard Operating Procedure
INFR-c-3	Moderate	PPW	
INFR-c-4	Existing	SCCFD	Standard Operating Procedure, part of the Development Review Process
INFR-c-5	Existing Underfunded SCCFD		
INFR-c-6	Existing	SCCFD	Adopted 2007 CFC, Reso 2007-123
INFR-c-7	Existing	PPW / SCCFD	
INFR-c-8	Existing Underfunded PPW / SCCFD		
INFR-d-1	Existing Underfunded PPW		Latest analysis performed by consultant needs updating however no resources avail at this time.
INFR-d-2	Existing	CDD PPW	Private development projects are required to go through Environmental Review which analyses flood impacts.
INFR-d-3	Existing Underfunded PPW		Latest analysis performed by consultant needs updating however no resources avail at this time.
INFR-d-4	Moderate	PPW	No budget currently available.
INFR-d-5	Moderate	PPW	No budget currently available.
INFR-d-6	Existing Underfunded PPW		Standard Operating Procedure
INFR-d-7	Existing	PPW	Standard Operating Procedure
INFR-d-8	Existing Underfunded PPW CDD		Standard Operating Procedure and Adoption of Stream Guidelines
INFR-d-9	Moderate	PPW	No budget currently available.
INFR-d-10	n/a		Town does not own or manage these types of facilities.
INFR-d-11	Existing	PPW	Standard Operating Procedures
INFR-d-12	n/a		Town does not own or manage these types of facilities.
INFR-d-13	n/a	PPW CDD	General review of these types of concerns are done

INFR-d-14	n/a		per our Development Review process
INFR-d-15	Moderate	PPW	Town does not own or manage these types of facilities.
INFR-d-16	NYC		No budget for this type of watershed analysis.
INFR-d-17	NYC		No budget available.
INFR-d-18	NYC		No budget available.
INFR-e-1	NYC		No budget available.
INFR-e-2	Existing	PPW CDD	Standard Operating Procedure and adoption of the Hillside Development Standards and Guidelines
INFR-f-1	Existing	PPW/CDD	Standard operating procedure
INFR-g-1	Existing	PD TMO	Provided through Los Gatos Prepared
INFR-g-2	Existing	PD TMO	Provided through Los Gatos Prepared
