

## **Policy Implementation Priorities**

### **Education/Information**

- Compile and edit best sources of information to narrow down the vast amounts of hazard information out there

### **Seismic Retrofit**

- Housing inventory
- How to decide which retrofit to prioritize based on evaluation
- Retrofit ordinances
  - URM
  - Soft Story
  - Cripple Wall
  - Tilt-up concrete
  - Non-ductile concrete
  - Chimney
- How to run a retrofit program
  - Voluntary or mandatory – pathways and benefits of each

### **Recovery**

- Pre-disaster rebuild and recovery plan
- Revise local plans and development codes to allow temporary land uses to facilitate and expedite post-disaster recovery

### **Flooding and SLR**

- Increase standards in local floodplain management ordinances beyond the minimum requirements of FEMA's NFIP program
- Incorporate sea level rise guidance within the capital planning process
